

What Our Patient Can Do To Help Us

Understand that we are only able to see dental emergency conditions at the moment.

A dental emergency is:

- Swollen face
- Toothache
- Broken painful tooth
- Dental trauma
- Uncontrollable bleeding from the mouth

If you do arrange an appointment with us, you can help us enormously. Here's how.

- Do not bring additional people to your appointment.
- Wait in your car in our car-park and we will come and collect you when it is time to take you through to the surgery.
- If you have ANY symptoms of illness (including diarrhoea) or have been overseas, tell us. We will make the necessary arrangements.
- If there is any chance that you have been in direct contact with someone who has, or is at risk of having, symptoms of COVID-19, call us and we will advise you further.

Use the provided hand-santitiser upon entrance to the practice.
