

Team Member Profiles For Your Facebook Page

To keep your patients engaged, post a profile of each member of your team.

You can add a new profile every few days.

The profile can include a picture with content or a video.

Each team member can explain what got them into dentistry, how long they have been with your practice, what their role in the practice is and what they love about their job

Team members can also post images of how they are making best and fun use of their time in isolation.
